He will clean hooves, tighten cinches, hold your horse while you mount, pick up any droppings, and put away your tack if you wish.
3. Monthly boarding fees should be paid by the first of the month, in pesos. You can give the money to either Javier or to one of the owners; or make arrangements to pay on-line via a bank transfer. As of April, 2017 the monthly board is 3800 pesos.

It is assumed that anyone boarding a horse, knows how to ride and how to care for a horse and tack; this is not a lesson facility, but you are welcome to bring a trainer in to work with you and your horse. Although of course one of the pleasures of having a stable full of riders is sharing hints and tips, and asking opinions, and talking over our experiences ("That tractor gunned his engine right under Pildie's butt! We went up and around and on the second circle I got him headed down the dirt road...").

Leased horses stabled at RDP

Monthly charges for a leased horse are higher than plain boarding charges, and include a loaned set of tack, regular worming, vet care, and hoof trimming or shoeing. The RDP owners will have oversight over the leased horse's care and health. As with boarders, it is assumed that anyone leasing a horse knows how to ride, and how to care for their horse and equipment, but feel free to ask questions. We all do!
